Objective

I am a recent graduate from the University of North Texas seeking an internship or employment in the fields of information technology and computer programming.

Education

University of North Texas, Denton, TX 2011 - 2015

Bachelor of Arts

Information Technology

3.31 GPA/3.56 Major GPA

North Lake College, Irving, TX 2008 - 2011

Associate in Science

Foundation Courses

Flower Mound High School, Flower Mound, TX 2004 - 2008

High School

Certifications

Sun Certified Associate for the Java Platform, Standard Edition

August 24, 2007

Programs Written

Networks

January 29, 2015

A Java program that maps the cellular and Wi-Fi networks around you (using OpenStreetMaps), and highlights the ones you are connected to.

Photo Uploader

November 28, 2012

A PHP program that allows the user to upload a variable amount of photos to a server, all at once.

Login Assistant

December 5, 2011

A Java program to automatically log an Android phone into a password-protected (not encrypted) Wi-Fi network.

bjavaloader-gui

December 12, 2010

A C++ program that allows for Linux users to add, remove, and update programs on their BlackBerry device using a GUI. This program is a GUI for a command-line program (not written by me) called `bjavaloader`.

Tester

2007

A Java program that allows for the administration of tests from a browser. Note: I cannot demonstrate this program, as I have lost the code for it.

In addition to these, I have written countless other programs. Please email me for a complete list.

Additional Skills

Programming Languages Known:

- C
- Java
- C#
- x86 Assembly (DOS/Windows)
- C++
- HTML
- CSS
- JavaScript
- PHP
- Visual Basic
